Officer McBride died as a result of hyponatremia (over-hydration as the result of drinking too much water) while participating in a strenuous bicycle patrol training course. During a 12-mile training ride on the second day of the course, Officer McBride drank as much as three gallons of water. When the ride completed Officer McBride complained about feeling ill. Thinking that he was dehydrated, he sat out the next portion of training.

Paramedics were summoned to the academy after another officer became injured. One of the paramedics noticed that Officer McBride was vomiting and convulsing and he was transported to Washington Hospital Center where he died.

Officer McBride had served with the Metropolitan Police Department for 2 years. He had been awarded the 1st District’s Rookie of the Year the previous year.

Police Officer Brian Steven Gregg

End of Watch: Thursday, September 29, 2005

Biographical Info
Age: 46
Tour of Duty: 1 yr
Badge Number: 5103

Incident Details
Cause of Death: Gunfire
Date of Incident: Thursday, September 29, 2005
Weapon Used: Officer’s handgun
Suspect Info: charged with capital murder

Officer Brian Gregg was shot and killed after a prisoner was able to gain possession of his partner’s service weapon at St. Mary’s Medical Center.

Officer Gregg and his partner were guarding a suspect who had been arrested earlier in the evening for drunk driving and had been taken to the hospital to undergo blood and urine tests. While in the emergency room, the prisoner began to struggle with Officer Gregg and a second officer. He gained control of the second officer’s service weapon and opened fire, striking Officer Gregg in the chest. The prisoner also shot the second officer in the chest, and wounded a hospital technician. The prisoner then walked up to Officer Gregg who was on the ground, and shot him in the head, killing him.

The prisoner fled the emergency room and was located approximately one hour later hiding in a car in the hospital’s parking garage. He was taken into custody and charged with one count of capital murder and two counts of attempted murder.

Officer Gregg had just started as a full time officer after serving as a part time officer with the 4-person department for 1 year. Officer Gregg is survived by his wife and 4 year old son.

Officer Gregg attended an IPMBA Police Cyclist Course taught by John F. Washington, in March 2004.

The 16th Annual IPMBA Conference & Product Exhibition

May 11-13, 2006
Dear IPMBA Conference Attendee:

Welcome to Dayton and the 16th Annual Conference of the International Police Mountain Bike Association.

On behalf of the IPMBA board, staff, members, and conference attendees, I would like to extend my sincere thanks to Dayton Police Chief Julian Davis and the Dayton Police Department Bicycle Unit for their support. The success of the IPMBA conference is largely dependent upon the host agency, and the Dayton Police Department will not disappoint.

This conference, held in the hometown of PCI #001, is a special one, not only because of Allan Howard’s impending retirement, but because it reflects the IPMBA’s ongoing goal of creating a strong network of bike personnel. The strong network of bike units throughout the Miami Valley has enabled the Dayton Police Department to bring together the resources of 14 other agencies to ensure you have a fantastic experience.

Most of these hard-working individuals will be wearing the traditional red polo shirt of the Command Staff, so when you see them, please be sure to tell them how much you appreciate their efforts.

Special thanks are also owed to each conference attendee, exhibitor, presenter, instructor, and guest. This is your event, and we are proud to host it for you.

We hope that during this conference, you will develop strong interactions that develop into lasting friendships and an open invitation to ride almost anytime, anywhere.

We’ll see you next year, April 14-21, 2007, in Baton Rouge, Louisiana - come on down!

International Police Mountain Bike Association (IPMBA)

Dear IPMBA Member:

It is my pleasure on behalf of the Dayton Police Department and our partnering agencies to welcome you to Dayton, Ohio for the 16th Annual I.P.M.B.A. Conference. We are extremely excited to host the 2006 conference and to showcase the Birth Place of Aviation.

Dayton was the home of aviation pioneers Wilbur and Orville Wright who, before their aviation success, ran a bicycle shop in Dayton. Due to Dayton being the hometown of the Wright Brothers, and the fact that they assembled their planes here, our city is known as the Birthplace of Aviation. Dayton continues its aviation heritage with The United States Air Force Museum that features some 300 aircraft and missiles over an area of more than 17 acres of indoor exhibit space.

It was also the home of the poet Paul Laurence Dunbar and of John H. Patterson, who founded a successful cash register business in Dayton, National Cash Register Corporation, now diversified far beyond cash registers and known by its initials NCR.

We encourage you to participate in the extracurricular activities that our staff has planned for you during your stay. We would like to thank the many businesses in our community that provided support and services so that you may enjoy all that we offer while you are here.

We hope that your stay is informative, enjoyable, and most of all safe.

Sincerely,

Julian K. Davis
Director and Chief of Police

COMPETITION!   The annual IPMBA mountain bike competition will take place on Friday, May 12, at RiverScape, one of Dayton’s downtown jewels. The Great Miami River and the spectacular Five Rivers Fountain of Lights will provide a stunning backdrop for this challenging course. The bike parade for all participants and spectators will stage near the bike check at 3:30pm and will depart promptly at 3:45pm with a motor escort. It will follow a route of approximately 2.5 miles, through the heart of downtown Dayton, on its way to the competition site. If you are competing and unable to depart with the parade, please plan to arrive at the competition site no later than 4:15pm. Shuttles for spectators will depart from the hotel every half-hour, starting at 4:00pm. A group photo will be taken at 4:30pm. The competition will begin at promptly at 5:00pm, following the course walk-through and safety briefing.

Registration forms for the competition are available at the Command Post, along with diagram of the course. Take time to look at the course and familiarize yourself with it, as pre-rides will not be permitted. This is an urban obstacle course with obstacles that you would normally encounter on regular patrol.

The competition, open to all registered conference participants, will have two categories – Public Safety (police, EMS, security) and Open (vendors, guest presenters, and guests). Public safety cyclists may register as individuals or teams of four (individuals will be assigned to teams). Mixed teams (e.g., two police, one EMS, and one security) are permitted. Public Safety medals will be awarded to the top three teams and the top two winners in the following age groups: Male under 30, Male 30-39, Male 40-49, Male 50+, Female under 30, Female 30+. Open Category participants will register as individuals, and medals will be awarded to the top three riders.

Registration forms are due back to the Command Post by 9:00am Friday! If you are not registered by 9:00am on Friday, you may not be permitted to compete. A complete list of rules and equipment requirements is available at the Command Post.

DINNER & AWARDS CEREMONY!   After a run at the competition course, stick around, for the fun is just beginning. The party starts at 7:00pm and will rock on to the sounds of the COP’RZ Band until 11:00pm. The COP’RZ Band was formed in the 1980’s as an educational tool for local youth, and was an instant hit. COP’RZ has played to crowds in nearly 10 states, and is proud of its reputation as one of the best all-cop bands ever! They have opened for the Pointer Sisters and George Benson and have performed with Billy Mason of the Tim McGraw Band.

Music’s nice, but it’s the food that really counts! Starting at 7:30pm (until 9:30pm), Smokin’ Jim Teal will be dishing up genuine Texas-style bar-b-cue. Jim honed his craft in the Lone Star State, where he was a regular on the competition scene. His brisket took first place at the Pasadena Rodeo Cook-Off, and the food editor for the Dayton Daily News said, “it’s the best thing to happen to the local food scene”. Joe’s joint is located just a block or two away from the hotel – close enough to smell the bar-b-cue smokin’!

Shuttle service will leave the Crowne Plaza Dayton every half-hour from 4:00pm until 11:30pm.

PRIZE DRAWING WILL TAKE PLACE AT THE POST-COMPETITION DINNER ON FRIDAY, MAY 12. YOU MUST BE PRESENT TO WIN!
The Intermediate and Advanced Off-Road Riding workshops will use the trails at Caesar’s Creek State Park. The Introduction to Off-Road Riding workshop will be held at Hills and Dales Park.

A map of recreational trails in Montgomery County, Ohio, can be found in your welcome bag.

**Caesar’s Creek State Park (see map on next page)**

There are four trailheads on this system.

**Ward Road:** A little cramped on parking (no more than 15-20 cars) but the best option for most people. It is in the center of the system and allows a good bailout point after doing a half loop for those not wanting the full monty. Head south for the new trail and some classic singletrack fun. It runs to the Harveysburg system via a creek crossing or will take you back to Ward Road for a nice little paved spin back. Head north to ride to the campground - some new trail here too and a few technical climbs/downhills and always a good ride. No bathrooms, water, or amenities unless you count the thick forest, the lake, and a place to throw your garbage (in the can please).

**Campground:** Lots of parking, facilities a short walk away, and as the name would lead you to believe – it is near the campground. On the far northern edge of the system it provides access to the Ward north and south trails and the small campground loop that comes out by the lake on the dead end road. A good place to start for big group rides and to stop and refill the water bottles and maybe pick up a snack during the summer (at the guard house store).

**Harveysburg Road:** Again lots of parking but not all in one place; it is scattered down the length of the road once you get into the park, but it is only a short ride to the trailhead. No amenities with the exception of port-a-potties at the small park on the way in, and no water except for the huge mass of it standing nearby. This section holds up the worst after a rain due to its age (as old as the dirt that you ride on), but offers the most technical touches in the amount of miles (do you like roots?). Connects to the Ward Road South section via a steep drop to the creek (many lines down and only one line up - but yes, it is climbable). Is a loop by itself as well and a nice little after work cruise. Snacks and beverages can be found at the gas station/store a mile east in Harveysburg but watch your speed (you’ve been warned).

**Brimestone Road:** Rarely used except by hunters and those cutting trail. 10+ car parking on both sides but no amenities. It offers access to the creek area that is the boundary between the Ward Road South and the Harveysburg Road systems.

**GPStats**

- Total elevation gain - 1350 feet
- Total Miles - 11.8
- Average Moving Speed - 5.5 mph

**Seasonal riding conditions:**

It stays wet in the spring and need at least two days to dry after a rain - please stay off when it is muddy. Some old sections yet to be replaced never fully dry so please don’t rim out the holes even worse. It freezes well in the winter due to cold air off the lake and is ripping fast in the summer. Be nice to the trail workers, they’ve put in a lot of work to keep these open and make them what they are. Report any misuse of the trails to the rangers (horses or motorized traffic).

**Directions:**

From I-71 in Ohio use exit 45 (SR 73).

To the campground go east on 73 and then north on the first road (380) and follow the park signs to Center road which leads to the park entrance. Parking lot is on the left at the old 4-way intersection right after entering the park. Bathrooms and water is down the little trail through the field which leads to the campground or you can park and walk from the guard house lot. Trail is on south side of the road just before the 4-way.

To Harveysburg Road go west on 73 for about 3 miles and look for a blue firehouse on the north side of the road (right after it turns to four lanes). Go north and look for a trail head sign on the right (about 1.5 miles), park in any of the small lots or along the road.

To Brimstone Road and Ward Road go east on 73 and then north on the first road (380) and look for Brimstone Road on the east (left) side. Follow it until it makes a hard left (south) at a jogged 4-way stop, you’ll see Ward Road straight ahead. Follow it until you can follow it no more, the parking lot is at the end. Trailheads are obvious. Brimstone Road continues on to the south (left) with its trailhead at the west side of the bridge at the bottom of the first hill.
