The ink on this issue of IPMBA News will hardly be dry before the editorial staff starts gathering material for the next few issues, and they will be counting on you!

If you have been reading IPMBA News for a while, you may have noticed that each issue typically has a “focus” section. This focus is like a theme – it forms the heart of the newsletter, grouping several articles related to a specific topic, like funding, training, or bike safety and education. Many of these sections have been developed and researched in response to questions, inquiries, suggestions, and stories from IPMBA members. They are usually compiled to fill a need or a knowledge gap.

If you don’t know where to start, start with success – one of our most popular themes.

Success stories will figure prominently in the Fall issue of IPMBA News, and you are invited to share your stories with your fellow members. This is your chance to boast about all the wonderful ways in which your bike team is having a positive impact on your community. Don’t be shy – boast about how well the bikes work for you, what you have accomplished with your bicycle, great ideas and how you implemented them, and your other stories of success. The deadline is September 29, 2006.

Without you, there would be no newsletter. Don’t keep your ideas to yourself. Shout them from the rooftop in each issue of IPMBA News!

For more information about submitting articles to IPMBA News, contact me at 410-744-2400 or Maureen@ipmba.org.

Two-Wheeling It

Bicycles squeeze through to create an important service niche

by Kathryn Robyn & Marie Nordberg
Associate Editors
Emergency Medical Product News

Bicycles and other two-wheeled vehicles are becoming increasingly prevalent in the EMS industry, helping agencies provide quick care in crowded settings like fairs, festivals and sporting events. Maureen Becker, executive director of the International Police Mountain Bike Association (IPMBA), which has a fast-growing EMS division, says that “As of 2002, 52% of EMS agencies in the nation’s largest 200 cities were [reportedly] using bikes.” Additionally, she says, “estimating from IPMBA membership, approximately 300 bike medic teams across the country are being deployed in a variety of circumstances.”

IPMBA, whose annual conference was held May 6-13 this year in Dayton, OH, is the preeminent trainer of both police and EMS cyclists. IPMBA-certified cyclist instructors have trained most, if not all, of this country’s bike medics, as well as the United Kingdom’s famed London Ambulance Service (LAS) bike medics. The growth of the bike medic niche might be reflected by next year’s conference host, East Baton Rouge Parish EMS in Louisiana, the first

(Continued on page 30)
Another successful conference was held this year in Dayton, Ohio. This year’s conference was truly a regional effort with over 12 police, fire and security agencies involved in the planning and coordination of the conference. The IPMBA board would like to thank Dayton PD and all the other agencies for their work and effort in hosting the event. Without their effort, we couldn’t have had such a successful event. It’s always good to renew old friendships and develop new ones and this year IPMBA members attended from six countries and 34 states. This just shows that our conference is truly an international event. Be sure come on down to Baton Rouge, Louisiana, next year, when our conference will be hosted by East Baton Rouge EMS. East Baton Rouge EMS will be the first EMS agency to ever host our conference and if I know Tom, Joyce, and the gang, it will be an outstanding conference.

During the conference, IPMBA elected several new individuals to the board. Your new board members are David Hildebrand from Denton (TX) PD, Mitch Trujillo from Boulder (CO) PD, and Ron Burkitt from Hilliard (OH) PD. You can learn more about your board members on page 31 of this newsletter or on the website by clicking on the yellow tab labeled Governing Board. Please drop an e-mail to any of your board members if you have a question or concern about anything. I would also like to personally thank both Gary McLaughlin and Loren Ryerson for the time, effort, and dedication they gave during their terms on the board. Their many years of bike patrol knowledge and experience will be missed.

Now that summer is here, remember that you need to keep yourself hydrated while you’re out riding. While an average person loses about 12 cups of water a day, a public safety cyclist can lose 36 cups of water because of the additional gear that they carry. While riding, make sure you drink plenty of fluids that contain carbohydrates and electrolytes to help your body maintain the proper chemical balance.

I wish each of you a safe and happy summer of cycling.

Jim Bowell, IPMBA President

Hey! Be an IPMBA Instructor!

Want to become an IPMBA-Certified Police Cyclist or EMS Cyclist Instructor?

Call 410-744-2400 or email info@ipmba.org to obtain an instructor application packet. In the simplest of terms, to become an Instructor, you must meet the criteria outlined in the packet, apply to IPMBA headquarters, be approved, then register for and attend one of the Instructor Courses. Check out www.ipmba.org for information on the upcoming instructor courses.

Hidden Gold Gifts, purveyors of IPMBA merchandise, is pleased to offer the first-ever IPMBA cycling jersey and socks! These jerseys are HOT…and perfect for the summer cycling season. Chris Hodges can barely keep them in stock, so don’t waste a moment – order one today! Contact Hidden Gold Gifts at hiddengold@hughes.net, 352-535-7317, or www.hiddengoldgifts.com. Note: these items can be found at http://www.hiddengoldgifts.com/ipmbacyclingjersey.htm, or can be ordered by phone or email.
Bringing Public safety Professionals Closer to the Community

Smith & Wesson builds bicycles to meet the needs of POLICE AND PUBLIC SAFETY PROFESSIONALS, people who spend their entire shift on a bicycle. Smith & Wesson bicycles are designed to provide a smooth, dependable and silent ride with a more COMFORTABLE "HEADS UP" RIDING POSITION that reduces strain on the wrists and shoulders.

Smith & Wesson bicycles feature an OVERSIZED ALUMINUM FRAME WITH A LIFETIME WARRANTY, heavy duty name brand components, strong downhill grade wheels, adjustable front suspension, rear rack, rear mounted kickstand, roadworthy tire tread and a comfortable saddle. In addition, Smith & Wesson offers a FULL LINE OF ACCESSORIES such as lights, bags and more to meet the needs of any agency.

For more information on pricing and features call toll free 1-877-533-7245

EMS EXPO
SEPT. 25-29, 2006
Pre-Conference: Sept. 25-26
Exhibits & Conference: Sept. 27-29
Las Vegas Convention Center
Las Vegas, Nevada

Co-located with both:

EMS EXPO
and the
NAEMT Annual Meeting
return to Las Vegas and
announce the co-location of
Firehouse Las Vegas,
making this the only complete
EMS, Fire and Rescue event.

For more information on attending or exhibiting, visit
www.emsexpo2006.com or call 800-827-8009.
IPMBA’s Annual Conference has become internationally known as the premier training and education opportunity for police, EMS, and security personnel on bikes. This year Dayton, Ohio, was the host city and a terrific time was had by all (and everybody learned something, too). IPMBA presents recap as its focus for this issue. Enjoy and let it inspire you to plan on coming to Baton Rouge for next year’s conference! Pages 5 - 13.

Many thanks to Chief Julian Davis, the Dayton Police Department, and their partner agencies for hosting the 16th Annual IPMBA Conference. Hosting a conference is not easy. It takes tremendous amounts of time, dedication, commitment, and resources, both financial and human. If invested properly, these resources can result in a positive outcome for all involved.

The outcome of the 16th Annual IPMBA Conference certainly was positive. Participants from 34 states and six countries have returned to their homes, eager to share their Dayton experience. They will no doubt recount stories about the training, the riding, the area history, and the fine Midwestern hospitality.

Special thanks to the members of the steering committee who demonstrated their commitment to the conference in countless ways from start to finish: Sgt. Allan Howard, Det. Jamie Bullens, P.O. Jeff Brown, P.O. Shawn Huey, NAO coordinator Cynthia August, all from the Dayton PD; Lt. Ron Adams, Sinclair Community College Police; Lt. Mark Arendt, Five Rivers Metro Parks; F.F. Jim Bowell, Troy Fire Department; Michael Emmons, Kettering Medical Center Security; Doug Evans, Sugarcreek Police Department; Faupo Lauofo, Centerville Police Department; Randy Maningas, WPAFB 88th Security Forces; Dee Osterfeld, Montgomery County Sheriff’s Office; David Roth, Kettering Fire Department; Roger (TR) Smart, Kettering Police Department; Mike Hawley, Huber Heights Police Department; Dan Bentley, Springboro Police Department; Todd Suchy, Beavercreek Police Department; and Ron Burkitt, Hilliard Police Department.

Not to be overlooked are those who gave of their time and effort to carry out the many logistics essential to the event: Det. Rebecca Rose, Det. Shirley Rockwell, Det. Mark Davis, P.O. William Jones, P.O. Gordon Cairns, P.O. Curtis Sweat, P.O. Patricia Pasquel, P.O. Ken Rondeau, P.O. Jason Tipton, P.O. David Williams, P.O. Ken Nurrenbrook, P.O. Chuck Tangeman, P.O. Justin Poe, P.O. Monica Evans, P.O. Brian Dedrick, P.O. Paul Saunders, P.O. Chris Fischer, P.O. Jimmy Howard, P.O. James Krauskoff, P.O. Matt Locke, P.O. Mollie Sharp, P.O. Kervin Velez, P.O. Jeffrey Watkins, P.O. Jon Zimmerman, all from the Dayton PD; Aaron Zimmaro and Terry Dunkel of Springboro Police, and Adrian Sargent and Ken Becker of Five Rivers MetroParks Police.

As always, the host committee “rolled out the red carpet” to ensure that their guests had an excellent time, both while in training and when enjoying the sights, sounds, and flavors of Dayton. They were an essential ingredient in the formula that makes the IPMBA conference the premier training event for public safety cyclists.

Browse through the memories of the 2006 IPMBA Conference and start making plans for the 17th Annual IPMBA Conference, April 14-21, 2007, in Baton Rouge, Louisiana. Laissez les bon temps rouler!
It was a dark and stormy night…ok, not really, but the clouds and rain certainly made it feel that way! However, no one let the weather darken their spirits; competitors and spectators alike truly enjoyed an excellent and exciting competition, held at Dayton’s RiverScape Park, during the 16th Annual Conference. It was so thrilling that even the Mayor of Dayton could not stay off the course.

Thanks to the creative and diabolical mind of Officer Jeff Brown of the Dayton PD bike unit, nearly 70 competitors encountered the type of challenging obstacles about which they may have previously only dreamed…or had nightmares!

The race began with a short sprint to a set of cones turning 90-degrees left and leading to a twisting, turning cone course around a statue of Wilbur and Orville Wright with the Wright flyer. Then it was a sharp left onto a multi-tiered set of ramps, a hard left up a short set of three steps, around a park bench and on to the patch collector. Tired yet? Coming out of the patch collector was a tight keyhole, followed by the teeter-totter and an eight-foot section of “washboard”. From here the competitors slalomed through a series of concrete bollards before climbing a short ramp and negotiating yet another series of bollards. As the competitors dashed for the finish line, a strategically placed cone tested their skill at “splitting the cone”, and then it was up-and-over a railroad tie and on to the finish!

No race is complete without some spectacular crashes – and near misses, such as the one in which a contestant, upon crossing the finish line, nearly collided with the mayor, testing the “life-saving” skills of Dayton’s Jamie Bullens who snatched her out of harm’s way. As a testament to the great skill displayed by all the competitors no one was seriously injured and the ambulance sat idle.

A number of well-received changes were made to the competition guidelines this year. The equipment requirements were modified to offer a competition more focused on rider skill and the separate categories for police, EMS, and security were merged into a single Public Safety category. This opened up the possibility for mixed teams. An open category was added to allow vendors and guests to participate. Finally, a Male 50 & over age group was created.

Team Desert Rat, comprised mostly of members of 2005’s Team Enchantment, took top honors in the team competition. After having been edged out of the top slot by less than three seconds last year, they were ready for revenge. Team Bethlehem has them in their sights for 2007! The “thirty-somethings” dominated the individual times for men. The top three finishers overall were Jason Schiffer, Bethlehem Police (1:50:92); Tom Lynch, London Ambulance Service (1:56:03); and just fractions of a second away from an individual medal, Brian Cantele, West Hartford Police (1:56:44). Tammy Kilgore Alois, Coconut Creek Police (4:04:83), topped her age group for the second year in a row, while Barb Winstead, Cincinnati Police (2:27:04) took first place over last year’s winner in the 35+ age group, Tammy Shoemaker, Huber Heights Police. The average run-time was 3:00:47.

I would like to congratulate all the competitors and the winners, and invite everyone to join us for what is sure to be another great conference and competition next year in Baton Rouge. I also want to thank Jeff Brown and folks from Dayton PD for setting up such a terrific course.

See competition results on next page!

Many thanks to John Brandt of University of Maryland Police for photographing all of the competition results!
2006 IPMBA COMPETITION RESULTS

Team Competition:
Team Desert Rat – 8:21:48
Wallace Downs, Las Cruces PD, 2:04:62
Rob Peterson, Las Cruces PD, 2:18:91
Pat Hernandez, Albuquerque PD, 2:01:51
Brian Cantele, West Hartford PD, 1:56:44

Team Bethlehem – 9:54:02
Jason Schiffer, Bethlehem PD, 1:50:92
Jon Pesesko, Bethlehem PD, 2:00:51
Tim Brooks, Bethlehem PD, 2:22:23
Jason Fulmer, Bethlehem PD, 3:40:01

Team TXBike.com – 10:11:02
Jason Schiffer, Bethlehem PD, 1:50:92
Rob Peterson, Las Cruces PD, 2:18:91
Jason Fulmer, Bethlehem PD, 3:40:01

Public Safety Category:
Male under 30
First Place: Craig Medley, Annapolis PD, 2:43:91
Second Place: Scott Grantz, Cornell University PD, 3:09:37

Male 30-39
First Place: Jason Schiffer, Bethlehem PD, 1:50:92
Second Place: Tom Lynch, London Ambulance Service, 1:56:03

Male 40-49
First Place: Jon Pesesko, Bethlehem PD, 2:00:51
Second Place: Wallace Downs, Las Cruces PD, 2:04:62

Male over 50
First Place: John Brandt, University of Maryland PD, 2:29:34
Second Place: Mike Satlow, Jerusalem Civil Guard, 3:52:94

Female under 35
First Place: Tammy Kilgore Alois, Coconut Creek PD, 4:04:83

Female 35+
First Place: Barbara Winstead, Cincinnati Police Division, 2:27:04
Second Place: Tammy Shoemaker, Huber Heights PD, 3:23:28

Open Category
First Place: Eric Kackley, Volcanic Bicycles, 2:05:03
Second Place: Mike McKerman, Volcanic Bicycles, 2:17:62

Congratulations 2006
IPMBA Conference Instructor Course Graduates!

Instructor Course Graduates, Dayton Conference 2006:

Richard Bennett, Charleston Police Dept., Charleston WV; Dan Bentley, Springboro Police Department, Springboro OH; Elizabeth Bouchard, University Of Guelph Campus Community Police, Guelph ON; Robert E Boyden, Western Kentucky University Police, Bowling Green KY; Roger Callese, Northwestern U PD, Evanston IL; Kyle Callihan, Baton Rouge Police Dept, Baton Rouge LA; Brian Cantele, West Hartford Police Dept., West Hartford CT; Rafael J. Casas, Western Kentucky University Police, Bowling Green KY; Eric S. Clarke, Shreveport Fire Dept, Shreveport LA; Christopher Combs, Boone County Sheriff's Office, Burlington KY; Joe Couce, Los Angeles Fire Dept., Wilmington CA; Richard E. Coy, Jr., Wright State Univ. Police Dept., Dayton OH; Gerald Devlin, PA Dept. of General Services, Harrisburg PA; Thomas J. Dunleavy, An Garda Siochana, Dublin, Ireland; Scott Elliott, Niagara Regional Police Service, St Catherines ON; Ryan Ervin, Metropolitan Police Department, Washington DC; James Gualdona, Guilford County Emergency Services, Greensboro NC; Jason Henthorn, Ohio State University Police, Columbus OH; Karl D. Hinze, Washington State Parks, Battle Ground WA; Shawn Huey, Dayton Police Department, Dayton OH; Cory D. Huff, Peoria Police Department, Peoria IL; Eldon Karratti, Los Angeles Fire Dept., Los Angeles CA; Christopher Langmeyer, Framingham Police Dept, Framingham MA; Timothy Larrad, West Merica Constabulary HQ, Worcester, UK; Dave Lennon, Conshohocken Police, Conshohocken PA; Chris Martin, Moorhead Police Dept., Moorhead MN; Gregory McDaniel, Lafayette City Police Department, Lafayette IN; Bradley Miller, Watsontown Police Dept., Watsontown PA; David Montemorin, Mesa Fire Dept., Mesa AZ; Thomas Moreland, Greenbelt Police Dept., Greenbelt MD; Anthony Mowery, TRAA / AMR of Fort Wayne, Fort Wayne IN; Ronnie Navarrete, Las Cruces Police Dept., Las Cruces NM; Rick Noble, Springfield Police Department, Springfield MO; Morgan Oconnor, An Garda Siochana, Phoenix Park, Dublin, Ireland; Eric Penn, Gwinnett County Police Dept., Lawrenceville GA; Paul Perdue, Charleston Police Dept., Charleston WV; Scott Perrin, Narragansett PD, Narragansett RI; Keith Plummer, London Ambulance Service, London, UK; Rod E. Roberts, Dayton Police Department, Dayton OH; Gerard Robinson, London Ambulance Service, London, UK; Fred Romano, Springdale Police Dept., Springdale OH; Charles Sanders, Metropolitan Police Department, Washington DC; Chris Shamburger, Shreveport Fire Dept, Shreveport LA; Robert Sibilio, Framingham Police Department, Framingham MA; Michael Siney, Sinclair College Police Dept., Dayton OH; Tracy Swestun, Windsor Police Service, Windsor ON; John Williams, Peoria Police Dept., Peoria IL; Matthew Worm, Omaha PD, Omaha NE; Jeff Worth, City of Santa Fe Police Dept, Santa Fe NM; Marc Zingarelli, Circleville Fire Dept., Circleville OH.
IPMBA Conference '06

Clockwise from top left: Volunteer Allen Stearns assists with the maintenance class; Chris Whaley, Ontario Provincial Police flies off the teeter-totter; attendees break for lunchtime; Mitch Trujillo (l) with future instructors; riders on the Tour de Dayton; Frank Demes, George Washington University PD (DC) and Tom Woods, Denton PD (TX); conference attendees visit a piece of aviation history.
any thanks to the instructors and presenters who shared their experience and knowledge to those who attended the 2006 IPMBA conference. Designing a presentation takes time and energy, and their efforts to ensure a high-quality training experience are greatly appreciated. IPMBA is grateful to the following individuals for helping maintain the IPMBA conference’s reputation as the premier training event for public safety cyclists.

Certified IPMBA Instructors
Kirby Beck, Coon Rapids PD (Retired), Coon Rapids MN
Adam Bernhardt, Police Executive Offices, Sydney NSW Australia
Neil Blackington, Boston EMS, Boston MA
Jim Bowell, Troy Fire Department, Troy OH
Paul Brown, College Station PD, College Station TX
Jeff Brown, Dayton PD, Dayton OH
Ron Burkitt, City of Hilliard PD, Hilliard OH
Chris Davala, Maryland State Police, Salisbury MD
Bob DeLaurentis, Univ. of Penn. PD, Philadelphia PA
Frank Demes, George Washington University PD, Washington DC
Steve Denny, Williamson Medical Center, Franklin TN
Doug Dillon, Houston PD, Houston TX
Wallace Downs, Las Cruces PD, Las Cruces NM
Kurt Feavel, University of Wisconsin @ Madison, Madison WI
Dan Ganzel, Palm Beach County Sheriffs Office, W. Palm Beach FL
Artie Gonzales, Topeka PD, Topeka KS
Lou Ann Hamblin, Van Buren Township PD, Belleville MI
Tommy Hamelink, Politie Haaglanden, The Hague, The Netherlands
John Hanke, Joliet PD, Joliet IL
Mark Hanner, Omaha PD, Omaha NE
Tom Harris, East Baton Rouge EMS, Baton Rouge LA
Robert Hatcher, Delaware PD, Delaware OH
David Hildebrand, Denton PD, Denton TX
Bernard Hogancamp, Homewood PD, Homewood IL
Mike Johnston, Utah’s Hogle Zoo, Salt Lake City UT
Monte May, Kansas City PD, Kansas City MO
Chad McDaniel, Seminole County Sheriffs Office, Sanford FL
Gary McLaughlin, Sacramento PD - Metro Bikes, Sacramento CA
Steve Noftz, Ohio University PD, Athens OH
Kenneth Peteriet, College Station PD, College Station TX
Lowell Petersen, Omaha PD, Omaha NE
Rob Peterson, Las Cruces PD, Las Cruces NM
Donald C. Reed, Denver PD, Denver CO
T.J. Richardson, St. Mary’s University Police, San Antonio TX
Jim Roy, Topeka PD, Topeka KS
John Russell, Bucks County Rescue Squad, Bristol PA
Loren Ryerson, Aspen PD, Aspen CO
Clint Sandusky, Riverside Community College PD, Riverside CA
Michael Satlow, Jerusalem District PD, Jerusalem, Israel
Jeff Shari, Cincinnati Police Division, Cincinnati OH
Al Simpson, Pompano Beach PD (Retired), Pompano Beach FL
Charlie Summers, Illinois State U. PD, Normal IL
Tom Tanner, Ann Arbor PD, Ann Arbor MI
Mitch Trujillo, Boulder PD, Boulder CO
Tony Valdes, Miami Dade PD, Miami FL
Kathleen Vonk, Ann Arbor PD, Ann Arbor MI
John Washington, Univ. of Penn. PD, Philadelphia PA
Michael Wear, Metropolitan PD, Washington DC
Chris Whaley, Ontario Provincial Police, Orillia ON, Canada
Clarence White, Indianapolis PD, Indianapolis IN
Barbara Winstead, Cincinnati Police Division, Cincinnati OH
Tom Woods, Denton PD, Denton TX

Guest Presenters
Michael Breitenstein, NIOSH, Cincinnati OH
Tim Daniels, London Ambulance Service, Rochester Kent, UK
Greg Fiebig, Tri-State RCPI, Cincinnati OH
Nancy Hill McClary, Center for the Study and Teaching of Writing, Columbus OH
Michael Hughes, Williamson Medical Center, Franklin TN
Tom McGrath, Tri-State RCPI, Cincinnati OH
Chris Menton, Roger Williams University, Bristol RI
Jeff Noftz, Medical Univ. of Ohio Dept. of Orthopedics, Toledo OH
Steven Schrader, NIOSH, Cincinnati OH
Tim Schurr, United Bicycle Institute, Ashland OR
Sarah Starr, Center for the Study and Teaching of Writing, Columbus OH
Despite the fact that the IPMBA conference has long attracted participants from around the globe, the novelty of hosting guests from other countries never seems to wear off. Perhaps it is the pleasure of introducing someone from another culture to some of the charms and peculiarities of the United States. Even if the same person returns year after year, there is always something regionally specific to discover and share.

The 16th Annual IPMBA Conference attracted participants from 34 states and six countries, not counting the United States. Australia was once again represented by Adam Bernhardt, who was honored to have been selected to help teach the Police Cyclist Course as part of an international cadre headed by Canadian Chris Whaley. Chris was joined by fellow “Ontarians” Liz Bouchard (University of Guelph Police), Scott Elliott (Niagara Regional Police), and Tracy Swystun (Windsor Police). Liz, Scott, and Tracy all successfully completed the IPMBA Instructor Course, more than doubling the number of certified IPMBA Instructors in Ontario! The province of Quebec was represented by repeat visitor George Martin of Listuaq Police.

London Ambulance Service dominated the UK section, with Keith Plummer and Gerard Robinson in the Instructor Course being joined by Tim Daniels, Lee Emmett, and Tom Lynch for the conference. Tim Larrad was the sole police representative, becoming the first IPMBA Instructor for the West Mercia Police. It would have been nice if they had left the fine British weather at home! Or was it the Irish who brought it with them…

IPMBA was pleased to welcome the first participants from the Emerald Isle – Joe Dunleavy and Morgan Oconnor, both with An Garda Siochana and based in Dublin. Having been certified as IPMBA Instructors, they will be delivering training to the Garda’s 300+ bike officers.

Mike Satlow again came all the way from Israel to attend the Maintenance Officers Course, offer his Bikes Against Terror workshop, and assist with other sessions. And finally, the country with more bikes than people sent an excellent representative in Tommy Hamelink from the Hague Police in the Netherlands. Tommy conducted several well-received workshops on using the bike for crowd control and tactics.

At press time, IPMBA representatives were busily preparing to attend the fourth annual 999 Emergency Services Cycling seminar, to be hosted by the Hampshire Constabulary and held in Southampton, England. An IPMBA Instructor Course will be held just prior to the event, and several attendees from the Netherlands are expected in the class.

Through its increasing presence around the globe, IPMBA continues to strive to meet its goals of promoting the use of bikes for public safety, providing resources and networking opportunities, and offering the best, most complete training for public safety cyclists.

Patrol Bike Systems Inc.
PO Box 9308, St. Paul, MN 55109-0308

View our soon-to-be-updated online catalog at www.patrolbike.com
The 16th Annual IPMBA Conference was attended by police, EMS, and security personnel from 34 states and six countries. They came to Dayton in order to gain essential information and skills and improve themselves as public safety cyclists. One of their favorite activities is browsing in the exhibit hall, meeting the people behind the products they already use and learning about new and emerging technologies. The vendors who attend the IPMBA conference are not just there to sell product; they are there to educate their customers and in turn be educated by them. They gain valuable insight into how their products perform in the field, which helps them continue to improve their products.

This year the conference featured something new – a Product Purchase Program (PPP) Showcase & Silent Auction. Many of the participants in IPMBA’s members-only discount contributed items for the Showcase & Auction. These items were displayed in the registration area throughout the pre-conference and conference. Attendees were thereby afforded the opportunity to familiarize themselves with many of the products available through the PPP. They could also bid on the items in hopes of going home with some new “toys.” The Showcase & Auction was a great success, raising awareness about the PPP and generating more than $3000 to support IPMBA’s programs. Many thanks to the contributors and the bidders for their support. Special thanks to Ron Burkitt and Ruth Bowell, who transformed the Showcase & Auction from an idea into reality. Plans are already in place to repeat the event as part of the 2007 IPMBA Conference. PPP participants are indicated in the list of supporters on page 13.

We were pleased to welcome a few new exhibitors to the floor – ALLTUFF Products, David’s Uniforms, Essex PB&R, Eye Safety Systems, Jones & Bartlett, Kuji Sports, Lin Manufacturing, and Timex. ALL-Tuff offers a wide array of bags, cases, packs, and gear for emergency personnel. They now offer panniers designed with the help of Anthony Mowery of TRAA/AMR of Fort Wayne. David’s Uniforms, owned by the always-cheerful David Duberstein, distributes uniforms and related equipment, including product from Mocean and United. Essex PB&R, also known as The Respiratory Group, offers ultra-light protective breathing hoods and compact (bike-sized!), reusable oxygen tanks. It was exciting to have an eyewear supplier in the house, as Willy Breen from Eye Safety Systems brought a selection of eyewear designed for military, LE, and fire/rescue professionals. Jones & Bartlett, the publishers of the second edition of the Complete Guide, currently under development, were on-hand to gain insight into the nature of this niche market. Spenco Ironman Gloves rep Bill Paine recruited two new vendors – Kuji Helmets, maker of the Reflectek helmet, and Timex (do they still “take a licking and keep on ticking”?). Both Kuji and Timex have recently enrolled in the IPMBA Product Purchase Program. Last but not least, Lin Manufacturing was on-site with the famous “Got Donuts?” socks, cleverly disguised as ordinary black Police cycling socks. The final vendor on this list is not new but has been absent these past few years – IPMBA welcomes the return of Fuji Bikes.

The vendors who attend the IPMBA conference are not just there to sell product; they are there to educate their customers and in turn be educated by them.

IPMBA appreciates the participation of industry members at every level - Product Purchase Program participant, advertiser, conference vendor, or sponsor. They are an important part of the IPMBA community. When you have the opportunity to buy something for personal or duty use, consider the companies who support IPMBA first. They’re working every day to serve you.
Many thanks to the vendors and other supporters without whom the IPMBA conference would seem incomplete. IPMBA has long worked in partnership with the industry, and without their support, bike personnel would still be riding regular mountain bikes and wearing cut-off uniform pants! Please show your gratitude to these companies by thinking of them first when you are shopping for bikes, uniforms, and anything else for your bike unit. Special thanks to those who contributed items for the silent auction and provided sponsorship support. We look forward to seeing them in Baton Rouge!

See more supporters on the next page!
Volcanic Bicycles has recently joined IPMBA’s Corporate Membership program. Volcanic, based in Olympia, Wash., builds bikes for the Seattle Police Department. The bikes are built by James Holland and Eric Kackley, previously welders with Klein Bicycles. James managed the welding department for 10 years and has personally welded more than 40,000 bicycles. They currently offer two models – the Approach Alpha and the Approach Beta. Both offer 12 month warranties on components and a lifetime warranty on the frames. Contact Mike McKernan at 360.943.8613 or mike@volcanicbikes.com or visit www.volcanicbikes.com.

Welcome New Corporate Member
Welcome to the IPMBA Product Purchase Program! Since its humble beginnings in 1997 with just four members, the Product Purchase Program has grown to include nearly 70 fine companies, including several from beyond the U.S. borders.

These companies provide a wide variety of goods and services, but they share a commitment to IPMBA members. By taking advantage of these discounts, you can pay for your membership with just a few purchases! Some loyal readers may notice that the listings in this issue are a little shorter than they have been in the past. The listings have been abbreviated somewhat in order to accommodate more participants, however, the full listings can be found in the Industry & Resources section at www.ipmba.org.

**ABS SPORTS**
- **Product**: Super Saddle

Product Review: Kuji Reflectek Helmet

by Charlie Summers, PCI #512
Illinois State University Police (IL)

Comming into a new bike patrol season with my officers begging for new helmets, I was excited when I was asked to test the new Kuji Reflectek Police cycling helmet from Ironman. When I received the helmet, I immediately took it to work to show it off. Several members of the bike unit tried the helmet for fit and comfort. They were very impressed, as was I. The Coolmax comfort pads covering the entire forehead area of the helmet made it extremely comfortable and are thin enough that the helmet will fit almost any rider without creating hot spots.

The Sure Fit Dial Retention System sealed the deal in ensuring a comfortable fit. This system made adjusting the helmet simple while securing it to the part of the body which protects the brain. Once dialed in, it stayed dialed in. Our current helmets tend to loosen during rides, but the Ironman maintained its fit. Another impressive feature about the helmet was that it was molded rather than taped together. This adds strength and durability.

I was also impressed with the vents. The front of the helmet has six very large vents, which let the air flow freely through the helmet. With a total of sixteen vents, the helmet kept me cool during my rides. The visor is vented as well, allowing you to suck up as much air as possible.

The rear of the helmet boasts the new Reflectek material, which can be seen up to distances of 200 yards. This should certainly cover any conspicuity concerns at night. Unfortunately for all you stealthy pedal prowlers, you can’t get the helmet without this feature.

After having given this helmet the work-over for a month, I am impressed with its comfort, large portholes, Coolmax padding, and Sure Fit Dial Retention system. Ironman has created a helmet which meets our needs, and the price is right. With a purchase price of $25, the Kuji Reflectek helmet should fit in nicely to any department’s budget.

Ironman helmets by Kuji are available through the IPMBA Product Purchase Program. Contact Bill Paine at painews@aol.com.

Charlie has been with ISUPD for 12 years, eight of those on bike patrol. He has been the bike patrol coordinator since 2001 and is both an IPMBA instructor and an avid recreational mountain biker. He can be reached at cesumme@ilstu.edu.

Product Review: Sweat GUTR by Tunnel Vision

by Ron Burkitt, PCI #488
Hilliard (OH) Police Department
International Board of Directors

Summer is here and the hottest days of riding are upon us. As the mercury goes higher, water consumption goes up, undershirts stay wet, gloves get soaked, helmet pads saturate and, worst of all, we sweat on our glasses. When sweat falls from your forehead to your lenses it causes all kinds of problems. Your vision becomes blurry and limited. You have to stop to wipe your glasses off, that is, if you can find something dry with which to wipe them!

Keep your helmet strapped and your glasses on because the people at Tunnel Vision have the product for you, the Sweat GUTR. The Sweat GUTR uses a patented MicroLip design to channel sweat from your forehead down the side of your face and away from your glasses. The more you sweat the better it works. The Sweat GUTR is made from soft PVC, so it is non-absorbent, hypoallergenic, lightweight, and easy to clean. One size fits all as it uses Velcro and elastic bands to adjust for comfort, and it is sleek enough to fit below your helmet.

I’ve had the pleasure of using a Sweat GUTR as temperatures in Ohio have risen into the 80’s and 90’s. Prior to its arrival I spent time in the yard cutting down six shrubs and four trees. I stopped many time to wipe off my forehead and clean my lenses. I remember telling my son, “I wish that Sweat GUTR was here.” The Sweat GUTR arrived at my house on the next day, of course, so my first chance to use it came while digging out all of the stumps I’d created. In the hours I spent outside bending and digging and sweating I never had to stop working to wipe sweat from my glasses. Just a twist of my head and the sweat ran down my face, away from my eyes and lenses. I wore the Sweat GUTR for most of the day to see how comfortable it was and I had no problems at all.

I took the Sweat GUTR to work to put it to the real test. I wore it just below my helmet, and as I rode I experienced all of the moisture of a summer tour of duty, with one notable exception – my glasses stayed clear. The Sweat GUTR worked just as well with my helmet on as it did in my yard. I rode for hours with no discomfort. At the end of my shift I ran it under water and left it to dry in my locker. It’s now a part of my duty gear.

In our jobs you never know when things will go bad. If your luck is like mine it’ll all come down just as a big drop of sweat hits your lens. With the Sweat GUTR that won’t be a possibility. The Sweat GUTR is a product that lives up to its claims. If you’re wearing sunglasses to stop the sun, you should be wearing a Sweat GUTR to stop the sweat.

The Sweat GUTR can be ordered from Tunnel Vision for $14.99. Visit www.sweatgutr.com, call 972-839-7333, or email Greg Thurmond at gmthurmond@comcast.net.

Ron has been an IPMBA member since 1998 and an IPMBA instructor since 2001. He was elected to the IPMBA Board of Directors in May 2006 and holds the position of Industry Liaison. He can be reached at rburkitt@columbus.rr.com.
Product Review: Endura Clothing

by Mike Surgett, PCI # 876
City of London Police, UK

The City of London Police has worked closely with Endura, a Scotland-based manufacturer of technical cycle-wear, to develop a range of bespoke police clothing for the City Police Cycle Patrol Team. Working with the author, Endura’s Jim McFarlane adapted items from Endura’s existing line of cycle clothing for police use. This collaboration has helped ensure that the products meet the specific needs of the cycle team and are of the highest quality.

The modification was to add the word ‘Police’, in Scotchlite® reflective material, to garments. This helps officers in two ways. The reflective material, in nighttime conditions, helps create the outline of a cyclist, enhancing safety by making other road users more aware that a cyclist is in their view. Secondly, the ‘Police’ labels help the officer to be identified as a police officer more readily, which should assist officers in court where the accused is using the defence of not recognising a police officer in uniform.

A reflective ‘Police’ label has been applied to each leg on the Endura Tech Pant waterproof overtrouser for men and on the Gridlock waterproof overtrouser for women. In addition, a ‘Police’ label has been applied to the rear panel in the seat of the trouser. This is very effective from the rear when in the riding position.

Reflective ‘Police’ labels have been applied to the Endura Cairn and Pulse tops. On the long-sleeve version, ‘Police’ is written down each arm and is highly visible to the front and side of an officer in riding position. The short sleeve tops have the word ‘Police’ written across the arms, which is visible from the side.

Endura have re-launched their Rannoch ‘Roubaix’ fleece top specially for the City of London Police. They have added the reflective ‘Police’ down each arm, one on the back, and a smaller one on the chest. This top is very popular with cycle patrol officers; it provides good protection from the wind and is warm when supplemented with a base layer. The additional logo on the front and rear allows officers to wear the top on other duties. They are both smart and identify the officer clearly.

For the summer, Endura have supplied the City of London Police Cycle Patrol Team with their MT 500 baggy cycle short. Reflective ‘Police’ labels have been added to the grey side panels and the seat panel. These are visible a full 360 degrees. The shorts are very popular with officers as they are fully adjustable and have numerous pockets.

Endura have even added small ‘Police’ labels across the knuckle area of their Dexter glove.

Overall, the City of London Police and Endura have developed both a high standard of cycle patrol uniform that have been supplied at a very good cost and a good working partnership.

For further enquiries on sales and manufacture please contact Jim McFarlane at Jim@endura.co.uk or on +44 01506497749.

Mike Surgett has been a police officer for four years and a bike officer for 2.5 years. He was certified as an IPMBA Instructor in 2005 and was awarded the 2006 London 999 Cycling in the Community Award. He has worked with companies such as Endura, Zyro and KIT to develop a police cycle uniform for the UK, as well as with Lowe Electronics, manufacturer of the Breeze headset. He can be reached at Mike.Surgett@City-of-London.pnn.police.uk.

The IPMBA Industry Relations Committee

The IPMBA Industry Relations Committee has a new leader – Ron Burkitt, Hilliard Police Department, who was recently elected to the board and the position of Industry Liaison. Ron has served as a member of the Industry Relations Committee; his primary task was to keep the Product Purchase Program listing accurate by updating them annually. Through his interactions with the members, he realized that many IPMBA members were not familiar enough with the products available through the program, so he organized the Product Purchase Program Showcase, which became the basis of the successful silent auction. Ron will be responsible for guiding the members of the Industry Committee in fulfilling the following mission, goals, and objectives. To achieve these goals, members write product reviews, conduct field tests, recruit exhibitors, and engage in other activities to develop industry partnerships.

Mission: The mission of the Industry Relations Committee is to develop positive working relationships with industry professionals, advance the development of products and technologies for public safety cyclists, and educate the public safety community about products that will have a positive impact on their daily duties.

Goals & Objectives: The primary goal of the Industry Relations Committee is to expand the relationship between members of the industry and public safety cyclists by improving communication and interaction through leadership, education, and training. This goal can be obtained by concentrating on three specific objectives:

- Develop Industry Relations: Develop and maintain strong, working partnerships with members of the cycling and public safety industries.
- Advance Products and Technologies for Public Safety Cyclists: Work with members of the cycling and public safety industries to improve current products and to create new ones that will meet the needs of the public safety cyclist.
- Educate the Public Safety Cycling Community: Provide IPMBA members with information about both new and established products and technologies that will positively impact their ability to perform their duties.

Current committee members are:
Bob Hatcher, Delaware (OH) Police Department
Steve Nofz, Ohio University (OH) Police Department

If you are interested in serving on the committee, please send a letter of interest and resume to Ron at rburkitt@columbus.rr.com.
Hello from the new U.K. correspondent for IPMBA News!

My name is Matt Langridge. I have been a Police Officer for nearly 18 years and serve with Thames Valley Police in High Wycombe, a small town in Buckinghamshire, about 25 miles north west of central London. I am married and have two teenage sons. Prior to joining the Police, I spent six years in the Army as an Infantryman.

Since May 2004 I have been engaged in cycle patrol work, having been asked to set up a trial cycle team by my area commander. As a result of this trial, my area now has three full-time cyclists and we are looking for more interested officers.

My predecessor in ‘News from the UK’, Inspector Nigel Tottie, has moved on to a different role in his force which has removed him from involvement with cycle patrol. Nigel has been very important in the evolution of mountain bike patrol in the UK and for this, we owe him a debt of gratitude. He organised the UK emergency services cycling seminar for three years and was instrumental in setting up the first IPMBA Police Cyclist Instructor Course to be held outside the USA, in 2005. I was fortunate enough to be a student on this course and am now PCI #869. Good luck in your new role, Nigel, and thanks for your help in setting a high standard for cycle patrol in the UK.

Why did I take on the role of UK correspondent? Well, like all police officers, I am a sucker for a damsel in distress and, when Maid Maureen responded to my submission of an article for the magazine by asking if I could write the column after Nigel’s move, how could I refuse? I am beginning to doubt my sanity, however!

Now on to the news.

Charlie Irvine from the Metropolitan Police has been very busy, getting cycle patrol and IPMBA into the limelight. On 18th May 2006 he was awarded a Borough Commanders commendation in recognition of his good work and expertise in the field of cycle patrol. Well done, Charlie!

In addition, Charlie has also recently provided training to six technicians from mobile phone company T-Mobile. This is a result of the problems experienced in London on 7th July 2005 after the terrorist bombings. The technicians were unable to get through gridlocked traffic to work on and improve mobile phone efficiency at this critical time for the Emergency Services. They decided that mountain bikes were the way forward. Kevin Duffy of T-Mobile reports that “the feedback I received from everyone on the course was excellent.” I believe that Charlie designed a program based on IPMBA training but abbreviated to meet their needs. The IPMBA training was selected over any available civilian cycling training because it was, in the words of the T-Mobile organiser who refused to take “no” for an answer, it is “more robust.” Another “well-done!” to Charlie.

British Transport Police have lost a strong advocate for police cycling with the departure of Keith Smith (pictured at right), who has been tirelessly promoting cycle patrol from his post in Edinburgh. Keith has accepted a position with Strathclyde Police, and has been trained as an explosive/bomb detection dog handler. He was elected to his post in part because of the commitment to the job that he displayed when promoting police cycling. So until Bailey learns to ride a bike, Keith won’t be riding one, either (at least, not whilst on duty). Congratulations and best wishes.
Lights: Keeping it Legal

by Matt Langridge, PCI# 869
Thames Valley Police (UK)

Every cyclist has seen the vast array of lighting available, be they a leisure cyclist, sports cyclist or Emergency Services Cyclist. These lights range from the battery powered commuter light to the ‘turn night into day’, rechargeable, downhill-racer-loony-nuclear-explosions-in-a-box lights. With all that is available, it is no surprise that people often stray outside of the law with their choice of illumination.

The law relating to cycle lights in the UK are set down in the Road Vehicles Lighting Regulations 1989 and the Road Vehicles Lighting (Amendment) Regulations 2005.

The amended regulations make a number of significant changes in the law as they affect cyclists. The first change of note for the Emergency Services is that the requirement for an emergency vehicle to be a ‘Motor Vehicle’ has been replaced with ‘Vehicle’. This effectively allows pedal cycles to be classified as emergency vehicles and therefore to be lawfully equipped with flashing blue lights.

The next and probably most significant change has been the legalising of flashing position lights for cycles. The Regulations specify lights of at least four candela output and quote: “the light shown by the lamp when flashing shall be displayed not less than 60 nor more than 240 equal times per minute and the intervals between each display of light shall be constant.”

In plain language, the light can flash between once and four times a second at a steady rate.

The obligatory lights that cycles need to conform to British Standard are as follows: a) old style lights BS6873 or b) new flashing style BS6102. What that means to us in Emergency Services is that, to continue to set the right example, any high-power light you fit to your cycle needs to be backed up by lights that meet the above minimum requirements. In my case, I have a small British Standard compliant front position lamp that has the flashing capability, and, to light the way when away from street lighting, a Lupine Passubio halogen ‘blinder’. “My handlebars aren’t wide enough for all that,” I hear you cry. I overcame this limitation by fitting a ‘Space Grip’ to my bars. This T-shaped attachment, available in several different sizes, clamps to the handlebar and provides additional mounting space for lights, computers, etc.

Remember, folks: It’s down to us to show the way to do it right.

Matt Langridge is an IPMBA Instructor and a member of the Thames Valley Police cycle patrol steering committee. He is a keen road cyclist and is committed to increasing the Police use of cycle patrols in the UK. He can be reached at matt.langridge@thamesvalley.pnn.police.uk or matt.langridge@tiscali.co.uk.
The *Complete Guide to Police Cycling* is back in stock! We apologize for any inconvenience caused by it being temporarily out-of-print. Calibre Press, which has been distributing the book since 1999, was acquired by Policeone.com, and in the process, the book was allowed to go out of stock. IPMBA received no notification that the book was not available and that there were no plans to have additional copies printed. The situation was brought to our attention by IPMBA members in need of the book and was resolved as quickly as possible. The book is now available from the IPMBA office. Please call 410-744-2400, fax 410-744-5504, or email info@ipmba.org to place an order. The price is $18.95 per book plus shipping. Please order as far in advance of the date you need it as possible. The *Complete Guide* will be distributed from the IPMBA office until further notice.

The second edition of the *Complete Guide* is still in the development phase. After the initial writing, the material is reviewed and revised multiple times by multiple people. The publisher takes the content and shapes it to the template that is used to ensure consistency from chapter to chapter. This is called “development editing.” In the next phase, external review, chapters are sent to content experts and end users who have not yet been involved in the process. They review the material to make sure that the information is complete, accurate, and comprehensible. Their comments become the basis for the next round of revisions. After everyone is satisfied that the chapters contain all the necessary information, the copy editing (spelling, grammar, sentence structure, consistency) commences. Because it is so important to create the best possible product, the completion date has not yet been determined, but it will be in 2007. IPMBA members and instructors will continue to be updated on the progress of the new materials as the process continues.

**IPMBA Merchandise Update**

Hidden Gold Gifts has relocated! Owner Chris Hodges has left the Nashville Police Department to accept a position with the federal government. His email address is now hiddengold@hughes.net, and his new phone number is 352-535-7317. Chris apologizes for any problems caused by his month-plus of training followed by his relocation and pledges to have IPMBA’s merchandise operations up and running smoothly as soon as possible.

IPMBA is considering the possibility of adding a custom throw (afghan) to its product line (see image). If you would be interested in purchasing such an item, please email Chris at hiddengold@hughes.net. The actual afghan comes in muted gold and blue and is nice and thick.

ELHN Badge & Emblem Designs, owned by IPMBA member Erno Nandori, is still supplying custom IPMBA badges to IPMBA members and instructors.

These high-quality badges are available in three finishes (gold, silver, or two-tone), two styles (pin-back or wallet clip), and three types (Police Cyclist, EMS Cyclist, and Security Cyclist). They can be customized in various ways, such as IPMBA instructor number, department badge number, and title. IPMBA membership status for all orders will be verified with IPMBA. The cost of the badges is $49 + shipping & handling; ELHN donates a portion of all sales to IPMBA to assist in our efforts to provide resources and training for public safety cyclists. For more information, please email elhnbadgedesign@aol.com or call 203-364-8644, or visit www.elhnbadges.com.
Member news

Greater Manchester Cycle Response Unit has Immediate Impact

Submitted by Tony Atkinson, Greater Manchester Cycle Response Unit (UK)

Our six month trial began on 19th June 2006. On the second day of the trial, one of the bikes was dispatched to an incident where a patient had fallen in front of a tram and was trapped underneath it. The bike, manned by Steve McAuley, was on scene at the incident in less than a minute. The other bike involved in the trial, manned by Victoria Catterall, was sent across the city to assist. They both did an excellent job and the patient was stabilized until such time as the ambulance arrived. Conceived behind a wall next to the youth were two bags of foreign currency and a personal CD player. The youth was arrested on suspicion of theft of the items. Subsequent enquiries showed that all recovered property was proceeds from a nearby dwelling burglary that was discovered by the victim and reported whilst the search was taking place. The youth who was allowed to leave was arrested later the same day.

Dave Brook, PCI #864, of the W. Yorkshire Police (UK) reports:

“I was on cycle patrol two weeks ago and whilst covering a big event, was close to a television star from the Emmerdale soap. He collapsed in a seizure, swallowing his tongue in front of me. I leapt to action, rendering first aid and possibly saving his life. It received big coverage in Yorkshire Evening Post, the Daily Star, and West Yorkshire Police magazine!”

Cycle Cops Bag the Burglars

Submitted by Matt Langridge, PCI #869, of the Thames Valley Police (UK)

Whilst engaged in an area search for a car containing armed robbery suspects, PC Mark Jenkins of the High Wycombe Neighbourhood Cycle Team, Thames Valley Police, found two youths hiding in an alleyway. He stopped them and decided to conduct a search. He was joined by a vehicle crew and his Cycle Patrol crewmate PC Matt Langridge. One of the youths was searched and, due to nothing being found, released. The second youth was found to have a hand held games console concealed in his boxers. Mark questioned him about this whilst Matt checked the area around where the stop had occurred. Concealed behind a wall next to the youth were two bags of foreign currency and a personal CD player. The youth was arrested on suspicion of theft of the items. Subsequent enquiries showed that all recovered property was proceeds from a nearby dwelling burglary that was discovered by the victim and reported whilst the search was taking place. The youth who was allowed to leave was arrested later the same day.

Send your news to maureen@ipmba.org!
IPMBA Police Cyclist Course in the Netherlands

Tommy Hamelink, PCI #865, has conducted the first IPMBA Police Cyclist Course to be held in the Netherlands and taught by a Dutch IPMBA Instructor (Stanley Cosper, PCI #249, taught a class there in 2001). The course was attended by three members of the Midden-West Brabant Police, one from the Hollands-Midden Police, and one from the Police Department Genk Belgium. Corne Sprangers, Wout Hoeks, and Sjef Brouwers all plan to attend the IPMBA Instructor Course in Southampton, England, in July. Instructor Tommy Hamelink reports that they enjoyed the tactical aspects most. They, like many of their countrymen, cycle thousands of miles per year for transportation, work, and recreation, so they had no difficulty with the on-bike skills.

The IPMBA Education Committee

Mission: The mission of the Education Committee is to develop effective policies, programs, and guidelines for the training of public safety cyclists. Its primary purpose is to provide information and tools to properly prepare police, EMS and security personnel for mountain bike duty.

Goals & Objectives: The goals of the Education Committee are to develop world class training materials, set standards, and establish policies pertaining to bicycle training for public safety personnel. These objectives are attained through:

- Establishing a diverse committee: Recruit committee members who represent a cross-section of the many types of agencies served by IPMBA.
- Listening to the IPMBA membership: Provide a mechanism by which IPMBA members may communicate their training needs, which are driven by the challenges they face in the field.
- Maintaining awareness of the environment: Recognize that the environment in which bike personnel operate is constantly changing and be prepared to adapt programs and policies to ensure the continued effectiveness of bike personnel.
- Developing training policies and materials through committee: Solicit the input of each committee member in order to ensure that the diverse needs of the membership are met. Assign responsibility for projects to one committee member, who is then responsible for soliciting input from the other members, preparing a draft, and submitting it to the committee for approval.
- Disseminating the information: Using IPMBA established communication channels, provide IPMBA members with tools and information that will positively impact their ability to perform their duties.

--- 2006-2007 IPMBA Education Committee Members ---

Donald “Corky” Reed, Denver Police (CO), Chairman
Robert Hatcher, City of Delaware Police (OH)
John Russell, Bucks County Rescue Squad (PA)
John Washington, University of Pennsylvania Police (PA)

Adam Bernhardt, New South Wales Police (Australia)
James Payne, Pittsburgh Housing Authority Police (PA)
Jeff Shari, Cincinnati Police (OH)
Michael Wear, Metropolitan Police Department (DC)
In Appreciation

IPMBA thanks Gary McLaughlin and Loren Ryerson for their service to the IPMBA Board of Directors.

Gary was elected to the board in 2003 and served one year as secretary and two years as Industry Liaison. This was his second time on the board, having served as newsletter editor (west) from 1992-1999. Gary is perhaps best known for his role as co-founder of the IPMBA Advanced Police Cyclist Course (now known as Survival Tactics & Riding Skills, or STARS), and for his ability to create diabolical cone courses. Gary is looking forward to his retirement from the Sacramento Police Department within the next year or two.

Loren was elected to the board in 2004 and held the position of secretary for his two years on the board. Upon president Monte May’s resignation in December 2005, Loren accepted the responsibilities of vice president in addition to his duties as secretary. He stepped down in May 2006 due to the demands of his position as chief of police in Aspen, Colo. Loren attended the first IPMBA conference, known as the First National Conference of Bicycle Mounted Police, in 1991, and has been an IPMBA member ever since.

Attention EMS Cyclists:

The Bike Medic discussion group is alive and well! This list, moderated by Steve Weigold of St. Clair Township-New Miami EMS (OH), is hosted by Topica.com. This list is used for discussion and information related to Emergency Medical Services and its delivery on bicycles by trained Emergency Medical Technicians, Paramedics and other health care providers. Topics run the gamut from training, organization of teams, purchasing equipment, guidelines, public education, bike and helmet safety to any other that is related to bicycle EMS delivery systems.

The list is pretty quiet and on-topic, so if you do join, you do not need to be concerned about being inundated with useless emails. To subscribe, send an email to bikemedic-subscribe@topica.com or visit http://lists.topica.com/lists/bikemedic/.

Steve Lyle of Williamson Medical Center in Franklin, Tennessee, passed away on May 6, 2006. He became a certified IPMBA member in September 2001, after having successfully completed the IPMBA EMS Cyclist Course taught by Greg Johnson, EMSI #035. Steve was diagnosed with skin cancer at about that same time, an experience he wrote about in Cycling’s Deadliest Risks Don’t Always Involve Accidents, which appeared in the Summer 2003 issue of IPMBA News. In that article, he cautioned his fellow public safety cyclists to use sunscreen and to have moles examined. He was cancer-free for several years before suffering a recurrence of the disease and a stroke in 2005.

Steve was born on July 5, 1969. He served in the Marine Corps and was a member of the White Bluff Church of Christ. He worked as a paramedic for the Williamson Medical EMS and Dickson County EMS. He was also a member of the Bike Medic Team and was a field training officer and EMS education instructor.
**MS 150: Miami to Key Largo**

by Jim Pierce, PCI #885
Miami Dade School Police (FL)

On May 6-7, the Maroone MS 150 ride made its way from Miami to Key Largo and back. Each rider in the MS 150, a charity ride for Multiple Sclerosis, is required to pay a $40 registration fee and raise a minimum of $300. Despite getting off to a late start, I raised about $370 from officers and support staff. My co-worker, Pablo Prado, who works in the technical department, and his team of five collected several thousand dollars.

This is the 20th year of the ride, which now boasts a record turnout and donations.

I initially rode with Sgt. Juan Seaboldt, an IPMBA trained officer. We now plan to put together a team of police officers and friends for next year.

The first half of the ride wove its way through the beautiful farmland and communities of south Miami Dade County with a group of close to 2000 riders finally crossing into Monroe County just north of Key Largo, where it detoured onto Card Sound Road after crossing US1 and then onto Key Largo, stopping at John Pennekamp State Park.

Approximately every 10 miles there were rest stops with food, drinks, and other support. The ride was accompanied by volunteers for escort support as well as local, county and state police, who secured intersections for smooth transitions. A nourishing lunch was supplied at the 50 mile marker, just a few miles prior to the Card Sound Bridge, which offers a beautiful view from the top of lower Key Biscayne and the bay.

At Pennekamp, after all the riders arrived, there was a dinner and party, and free camping for all. Pennekamp is a beautiful marine park offering the many outdoor and water activities of the upper Keys.

The second day started with a great breakfast and a very well organized send-off. The riders then retrace their path in reverse, again with rest stops at 10-mile intervals. The highlight was lunch at the Homestead raceway after the one-mile lap on the track, which puts the riders who complete the entire ride at 151 miles. I really enjoyed this quite a bit...taking the high walls with the drops and climbs!

Not really being a road bike rider, I feel I did well on the return journey; back in less than four hours, including a couple of stops. I received my medal of appreciation and great cheers at the finish line – what a great feeling of accomplishment! That feeling prompted me to start with my fellow officers and plan for the following year to form a team, increase the donations to this noble cause, and enjoy the company of some great human beings doing something one can’t help but enjoy...riding a bicycle.

Jim was certified as an IPMBA Instructor in 2005. He is excited to announce that his daughter just graduated from high school and is planning to pursue a degree in criminal justice. He can be reached at piercearrow50@aol.com.

Information on the MS-150 rides, held around the country throughout the year, can be found at http://www.nationalmssociety.org.

**Connecticut Passes Bicycle Bill**

The Connecticut General Assembly has passed a bill that will effectively require all bike-mounted emergency medical services personnel to wear a distinct uniform, use an audible warning device, and complete a bicycle operations course.

The section, 14-286e, which previously applied only to police officers, will now read as follows:

(a) Any police officer, firefighter or emergency service personnel operating a bicycle in response to an emergency call or while engaged in rescue operations or in the immediate pursuit of an actual or suspected violator of the law shall be exempt from the provisions of sections 14-286, 14-286a, 14-286b, 14-286c, and 14-289 provided (1) the police officer, firefighter or emergency service personnel is sixteen years of age or older, (2) the police officer, firefighter or emergency service personnel is wearing a distinctive uniform, and (3) the police officer has completed a course of instruction in basic police bicycle patrol certified by the Police Officer Standards and Training Council or an equivalent course of instruction, and the firefighter or emergency service personnel has completed an equivalent course of basic bicycle patrol.

The exemptions, which cover actions such as operating on sidewalks, riding to the right, turns, etc., will only apply when the emergency responder uses an audible warning signal device, including, but not limited to a siren, whistle, or bell.

Thanks to Ernie Nandori, Neil Blackington, and Stephen Estes for providing information for this article.
PowerPoint is supposed to be a communication tool, not just a medium for digital exercise—and certainly not an instrument for torturing others. Audiences benefit when you employ its capabilities rather than inflict them. And yet, at least nine out of ten presenters you’ll see get up in front of perfectly intelligent audiences and paralyze them all with tons and tons of tiny, tiny text.

Audiences don’t remember what they don’t experience. And no matter how brilliant you are or how great your command of your material, your content deserves a package that won’t put your participants to sleep. When you teach sleep-deprived people who run trauma calls for a living, you pretty much need to reach out and grab them by the throats in order to get their attention. And if you’re teaching right after lunch, you’d better have a good grip.

To some presenters, that means spastic slide transitions, clonic color combinations and fuzzy little video clips in every slide. It shouldn’t. Remember, the essence of your talk is its content—not special effects. And your command of the content is what qualifies you to deliver it. Of course, your imagination can be a powerful thing. Longtime EMS educator Gary Wiemokly (now Public Health Services Manager for the Connecticut Department of Public Health) just told me how he and Sierra Vista, AZ, paramedic Mike Grill paid a few bucks for an old, non-operating laptop and pretended to connect it to a projector. Of course they knew the thing wouldn’t work, but they pretended it was supposed to. When they had fumbled with it for awhile, they expressed fake exasperation, threw it on the floor and stomped on it before connecting their real laptop to the projector.

A trick like that will put an audience right where you want them—in the palm of your hand. After that, they’ll pay attention to anything you say. And whatever parts of your material they may forget, they will certainly remember you. Like long-time EMS educator Twink Dalton, you can also add skits to your presentations, featuring wigs, simple costumes and makeup. EMS audiences love imagination, and they learn enduring lessons as a result of it.

Speaking of imagination, that brings us right back to PowerPoint. You don’t have to be limited by PowerPoint’s bundled templates. Nor do you have to go out and buy the custom ones. The graphics in this article [available in the print version of EMS Magazine] illustrate some different approaches to slides that you can make with a few lines, rectangles and clipart objects, a little shading and maybe some sense for color and contrast.

Thom Dick has been involved in EMS for 35 years, 23 of them as a full-time EMT and paramedic in San Diego County. He is the quality care coordinator for Platte Valley Ambulance Service, a community-owned, hospital-based 9-1-1 provider in Brighton, CO. Thom is also a member of EMS Magazine’s editorial advisory board. Reach him at boxcar414@aol.com.

Instructor Corner

Now that we've got your attention … IPMBA is actively seeking workshops for the 17th Annual IPMBA Conference in Baton Rouge!

This is your chance to share your latest brilliant ideas or your tried-and-true techniques. Your proposal can be for a classroom or an on-bike session. Workshops can be 1.25 hours, 2.75 hours, or 4.25 hours in length.

…it's easy – just follow these steps!

**STEP ONE:** Contact IPMBA HQ at Maureen@ipmba.org or 410-744-2400. Ask for a set of workshop proposal specifications.

**STEP TWO:** Select a Topic. Stop hoarding your in-service training ideas.

**STEP THREE:** Write your Proposal. Follow the guidelines carefully.

**STEP FOUR:** Submit your proposal to IPMBA HQ by August 1, 2006. If you would also like to be considered for the pre-conference and/or as a full conference instructor, be sure to include a cover letter and resume as indicated in the “Call for Instructors.”

**STEP FIVE:** Congratulate Yourself. You’ve just taken the first step towards teaching at the IPMBA Conference! You will be notified of the Education Committee’s decision in early fall.

**Note about Repeat Workshops:** Even if your workshop has been offered at past conferences, you must still submit the workshop proposal form. Past inclusion does not guarantee acceptance.

---

**IPMBA Welcomes a New Instructor Trainer**

Congratulations to Sgt. Chad McDaniel, PCI #0070/EMSCI #106, of the Seminole County (FL) Sheriff’s Office. Chad has earned the distinction of IPMBA Instructor Trainer (IT). IPMBA Instructor Trainers are a small group of instructors who teach the IPMBA Instructor Course. Becoming an IT is not easy. To become an IT, a candidate must have been an active IPMBA instructor for at least four years, have taught a minimum of 4,000 student-hours, have taught at least eight IPMBA PC or EMSC classes within the past four years (at least two with co-instructors and four as lead/solo instructor), and have been an instructor for a class with 20 or more students. Upon providing documentation that these criteria have been met, the candidate is required to complete at least one student teach under an experienced instructor trainer, who evaluates the candidate and makes a recommendation to the Education Director.

Chad, who has been an IPMBA Instructor since 1994, completed his student teach during the IPMBA Instructor Course held May 6-10, 2006, in Dayton, Ohio.

**17th Annual IPMBA Conference Call for Instructors**

The 17th Annual IPMBA Conference will be held April 19-21, 2007, in Baton Rouge, Louisiana. The IPMBA Instructor, Survival Tactics & Riding Skills, Public Safety Cyclist II, and Maintenance Officer Courses will be held April 14-18; the IPMBA Police & EMS Cyclist Courses will be held April 15-18; and the IPMBA Security Cyclist and Bicycle Rapid Response Team Courses will be held April 16-18.

If you are an active, IPMBA-certified instructor and are interested in teaching at the conference or pre-conference, you must submit a letter of interest and resume outlining your bicycling, work, and teaching experience to the Education Committee for consideration. Please include non-bicycling-related expertise and/or instructor certifications.

List all past IPMBA conferences for which you have instructed and/or attended, including a list of workshops for which you have been lead or co-instructor. Also include the number of PC/EMSC/SC classes you have conducted and/or the number of PC/EMSC/SC students you have instructed.

Instructors will be selected for the pre-conference training courses as well as the core conference workshops. Be sure to indicate which course you would like to teach and/or the workshops you would like to present. (Refer to last year’s conference registration issue for a list of typical workshops.)

Specify whether you are available for the pre-conference, conference, or both. Please email to maureen@ipmba.org and education@ipmba.org, fax to 410-744-5504, or mail to 583 Frederick Road, Suite 5B, Baltimore MD 21228.

If you wish to teach at the conference or pre-conference you must submit a resume, even if you have done so in the past. No exceptions!

---

**Pssst! You. That’s right, you. We want your workshop proposal for next year’s conference…**

Now that we’ve got your attention … IPMBA is actively seeking workshops for the 17th Annual IPMBA Conference in Baton Rouge!

This is your chance to share your latest brilliant ideas or your tried-and-true techniques. Your proposal can be for a classroom or an on-bike session. Workshops can be 1.25 hours, 2.75 hours, or 4.25 hours in length.

*IPMBA NEWS, VOL. 15, NO. 3*
Two-Wheeling It

(Continued from page 1)

emergency medical service to host the conference, says Tom Harris, NREMT-P, public service coordinator for the municipal third service.

“It’s predominantly hosted by large police departments,” says Harris. “I’m flattered to be allowed the opportunity to even bid on it, let alone get it.”

The 24-medical bike team in East Baton Rouge Parish EMS, in service since 1995, is an advanced life support team that works the bikes as an extra detail. “We utilize our bike medics for all large special events,” he says. “These vary throughout the year, but I will have a bike team out every week. Louisiana State University typically gets over 100,000 people here for a home football game, so it gets very crowded and we can’t hardly get a vehicle down the streets at all, so we use the bikes for initial first response. They’re meant to stand alone for 10 minutes in a cardiac arrest situation.”

A similar scenario is echoed by the leaders of other bike teams. As metropolitan areas and public events get more crowded, and people’s expectations for emergency response get higher, it makes sense to deploy bikes.

Boston EMS, another third-service municipal agency that had the foresight to invigorate EMS with bicycles some 10 years ago, has 45 medics on its team who share 20 bikes among them. Until recently, the Boston team patrolled day and night, says Deputy Superintendent Neil Blackington. “And, we will do it again if we have the staffing, but right now our unit--like about 90% of the rest of the country--is using its bikes primarily for special events like parades, festivals and unusual concerts. Two of our biggest events are the Boston Pops 4th of July concert and fireworks, which attracts somewhere in the order of 500,000 to 750,000 people to the Esplanade along the Charles River, and the Boston Marathon on Patriot’s Day. About 1.5 million people gather here for that, mostly in the city of Boston, which is where it finishes.”

Bike teams have become more common around the country for these special event standbys, especially in services that consider themselves “very progressive,” as Blackington sees Boston EMS. “We have a lot of alternative response devices for EMS,” he says. “We already had electric cars and golf carts, and we used Segways for a period of time. Bikes were of interest to us as just another tool in the toolbox.”

Training to Ride

Obviously, there’s more to providing EMS from a bicycle than just knowing how to ride one.

“We teach a 32-hour program for EMTs and paramedics that is geared toward using bikes rather than teaching medicine,” says IPMBA-certified instructor Blackington. “Our presumption is, whatever you do once you get off the bike to treat the patient you have gleaned from other training and experience. Our job is really to help people get oriented to professional public-safety biking, which is different from what you learned about bike-riding as a child. Putting that much extra weight onto a bike changes the dynamics of how you handle it. And, we’re doing a different type of cycling most of the time. We aren’t racing around; we’re usually carefully weaving our way through high-density crowds or narrow access points, so we teach a lot of slow-speed skills. The first thing our students learn is that it’s not about racing or about how fast they can get from point A to B. It’s that bikes can maneuver crowds or congested streets better.

“We also teach physical fitness and nutrition. Most places require tryouts, so employees are getting in better shape in order to participate on the team, which creates an upside in having better-conditioned employees. There’s also a maintenance segment in our course that teaches EMTs and paramedics how to handle routine maintenance issues that might occur in the field. Almost everyone carries a spare tire and some emergency tools to keep their bike fine-tuned to their particular fit or to maintain it if something comes loose.”

Blackington says they realize that some departments may not be able to afford a bike for each medic, and that is addressed in the training sessions.

“Some departments just buy a couple of bikes in the mid-range sizes, so we teach students how to make adjustments in seat height and direction and handlebar height, and how to tailor the bike to their particular stature, experience, capability and things like that,” he says.

Where To Next?

As bike use in EMS grows, so, too, has the number of manufacturers that offer emergency lighting systems, bicycle accessories and clothing. Some manufacturers, says Blackington, are even making bullet-resistant vests specifically for bike duty.

Which leads to the question: In these turbulent times, how safe is it to be a medic on a bike?

“I don’t think homeland security circumstances have impacted bikes that much,” says Blackington. “There has always been a training component that deals with EMT and paramedic safety when they’re on a bike. In the last five years or so, we’ve developed a teaching program at the IPMBA conference that deals with putting SWAT officers or special response officers on bikes.”

In EMS providers’ favor is that they can approach a scene relatively unnoticed, allowing medics the opportunity to survey the scene from a distance with relative anonymity, then make a decision about whether it’s appropriate to go the rest of the way. Obviously, the mobility with the bike means they can maneuver out and away from a situation faster than if they were locked into an automobile. They don’t have the glass and steel enclosure that an ambulance provides, but an ambulance doesn’t always provide protection anyway.

“For the most part,” Blackington concludes, “bicycling EMS is a lot of fun. It’s a morale booster for agencies that have bikes and an opportunity to reward good employees.”

For more on bicycle EMS, visit www.ipmba.org.

This article appeared in the May/June 2006 issue of Emergency Medical Product News. The cover photo and others were taken by Greg Johnson, a former member of the Williamson Medical Center EMS Bike Team in Franklin, Tenn.
**IPMBA Governing Board 2006—2007**

**President**
Jim Bowell, PCI #567T / EMSCI #001T
Troy Fire Department, Troy, OH
Number of Years in EMS: 24
Number of Years on Bike Duty: 12
IPMBA Member Since: 1995

The Best Part about Being a Bike Medic: Knowing that by being out there working, you’ll end up making a difference in someone’s life.

Best Bike Wreck: There have been too many. I can’t say that any of them were the best.

#1 Priority for IPMBA: Provide the best, most current, and relevant training for all public safety cyclists, and be the #1 resource for bike personnel around the world.

**Vice President**
Christopher M. Davala, PCI #490 / EMSCI #056
Maryland State Police, Salisbury MD
Number of Years in Law Enforcement/EMS: 8
Number of Years on Bike Duty: 6
IPMBA Member Since: 2000

The Best Part about Being a Bike Cop: Learning new and improved ways to make myself a better officer and communicator in my community.

Best Bike Wreck: The wreck in Cincinnati - that tree still has my mark on it.

#1 Priority for IPMBA: Maintaining a unified and defined front so as to promote education, focus resources, and offer the best, most complete training for the public safety cyclist.

**Secretary**
Jeff Brown, PCI #487 / EMSCI #064
Dayton Police Department, Dayton OH
Number of Years in Law Enforcement: 13
# of Years on Bike Duty: 7
IPMBA Member Since: 1999

The Best Part about Being a Bike Cop: Closer interaction with the public. You will be amazed what people on the street are willing to tell you. It doesn’t hurt that I get to wear shorts in the summer, too...

Best Bike Wreck: Let’s just say “Remember the Alamo Dome.”

#1 Priority for IPMBA: To provide the best training opportunities available to public safety cyclists.

**Treasurer**
Kurt Feavel, PCI #539
University of Wisconsin Police Department, Madison WI
Number of Years in Law Enforcement: 22
Number of Years on Bike Duty: 15
IPMBA Member Since: 2001

The Best Part about Being a Bike Cop: Getting out and interacting with people on a personal level.

Best Bike Wreck: Messed up hook slide that sent me over the bars and broke two fingers on my right hand.

#1 Priority for IPMBA: Making sure we continue to provide the highest level of service to our members.

**Education Director**
Donald C. “Corky” Reed, PCI #195T / EMSCI #038T
Denver Police Department, Denver CO
Number of Years in Law Enforcement: 20+
Number of Years on Bike Duty: 9
IPMBA Member Since: 1993

The Best Part about Being a Bike Cop: Freedom

Best Bike Wreck: Falling down twice at the same intersection. Once when the light turned red and again when it turned green.

#1 Priority for IPMBA: World class training material

**Conference Coordinator**
David Hildebrand, PCI #404T / EMSCI #118T
Denton Police Department, Denton TX
Number of Years in Law Enforcement: 16
Number of Years on Bike Duty: 10
IPMBA Member Since: 1999

The Best Part about Being a Bike Cop: That deer in the headlight look from a doper you’ve just surprised and busted.

Best Bike Wreck: May 2005, over the handlebars for a severe and classic face plant, photos available.

#1 Priority for IPMBA: To strive to maintain and improve the level of service and professionalism administered to public safety cycling.

**Industry Liaison**
Ron Burkitt, PCI #488
Hilliard Police Department, Hilliard OH
Number of Years in Law Enforcement: 16
Number of Years on Bike Duty: 12
IPMBA Member Since: 1998

The Best Part about Being a Bike Cop: Seeing everything from a different perspective.

Best Bike Wreck: I endoed after hitting a guidewire in front of the high school band. The director comes over and says “yarght”; after I said “yes” they all started laughing with me!

#1 Priority for IPMBA: To serve our members through the instructors and vendors so that our members can better serve their communities.

**EMS Coordinator**
Neil P. Blackington, EMSCI #031/PCI #902
Boston EMS, Boston MA
Number of Years in Law Enforcement and/or EMS: 35
Number of Years on Bike Duty: 10
IPMBA Member Since (e.g., 2001): 1999

The Best Part about Being a Bike Cop/Medic: Arriving first!

Best Bike Wreck: Jumping off the waterfall at the Tower of the Americas in San Antonio – and landing in a four foot deep reflecting pool.

#1 Priority for IPMBA: Embracing the entire public safety cycling community.

**Membership Coordinator**
Mitch Trujillo, PCI #244T
Boulder Police Department, Boulder CO
Number of Years in Law Enforcement: 13
Number of Years on Bike Duty: 11
IPMBA Member Since: 1995

The Best Part about Being a Bike Cop: Using a bike as a tool to serve my community. Too cool.

Best Bike Wreck: During a particularly technical, downhill section, I found myself start to “endo”, but managed to clip out of the pedals & step forward over the handlebar to scramble off the bike. I received a dose of humility when the cart-wheeling bike behind me cracked me in the back of my head. Pain is a great teacher.

#1 Priority for IPMBA: To constantly look for new ways to improve our programs and benefits to retain and attract new members to the finest public safety bicycle organization in the world.
